Independent Accountants' Review Report

To the Board of Directors and Management of HCA Healthcare, Inc.

We have reviewed HCA Healthcare, Inc.'s Schedule of Scope 1 and Scope 2 Location-Based Greenhouse Gas Emissions (the "Subject Matter") included in Appendix A for the year ended December 31, 2021, in accordance with the World Resources Institute/World Business Council for Sustainable Development's *The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard, Revised Edition* (the "Criteria"). HCA Healthcare, Inc.'s management is responsible for the Subject Matter in accordance with the Criteria. Our responsibility is to express a conclusion on the Subject Matter based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) AT-C section 105, *Concepts Common to All Attestation Engagements*, and AT-C section 210, *Review Engagements*. Those standards require that we plan and perform our review to obtain limited assurance about whether any material modifications should be made to the Subject Matter in order for it to be in accordance with the Criteria. The procedures performed in a review vary in nature and timing from and are substantially less in extent than, an examination, the objective of which is to obtain reasonable assurance about whether the Subject Matter is in accordance with the Criteria, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. Because of the limited nature of the engagement, the level of assurance obtained in a review is substantially lower than the assurance that would have been obtained had an examination been performed. As such, a review does not provide assurance that we became aware of all significant matters that would be disclosed in an examination. We believe that the review evidence obtained is sufficient and appropriate to provide a reasonable basis for our conclusion.

We are required to be independent of HCA Healthcare, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review engagement. Additionally, we have complied with the other ethical requirements set forth in the Code of Professional Conduct and applied the Statements on Quality Control Standards established by the AICPA.

As described in the notes accompanying the schedule in Appendix A, the Subject Matter is subject to measurement uncertainties resulting from limitations inherent in the nature of and the methods used in determining such data. The selection of different but acceptable measurement techniques can result in materially different measurements. The precision of different measurement techniques may also vary.

The procedures we performed were based on our professional judgment. Our review consisted principally of applying analytical procedures, making inquiries of persons responsible for the subject matter, obtaining an understanding of the data management systems and processes used to generate, aggregate and report the Subject Matter and performing such other procedures as we considered necessary in the circumstances.

The information included in HCA Healthcare, Inc.'s Sustainability Report, other than the Subject Matter, has not been subjected to the procedures applied in our review and, accordingly, we express no conclusion on it.

Based on our review, we are not aware of any material modifications that should be made to the Schedule of Scope 1 and Scope 2 Location-Based Greenhouse Gas Emissions for the year ended December 31, 2021, in order for it to be in accordance with the Criteria.

August 15, 2022

Appendix A

Management’s Schedule of the Subject Matter and Criteria:

HCA Healthcare, Inc.
 Schedule of Scope 1 and 2 Location-Based Greenhouse Gas Emissions
 For the Year Ended December 31, 2021
 Amounts in Metric Tonnes CO₂e

Metric	Amount	Unit	Criteria
Scope 1 Emissions	729,488	Metric tonnes of carbon dioxide equivalent (“mt CO ₂ e”)	World Resources Institute (WRI)/World Business Council for Sustainable Development’s (WBCSD) <i>The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard, Revised Edition</i> (GHG Protocol)
Scope 2 Location-Based Emissions	1,222,706	mt CO ₂ e	WRI/WBCSD GHG Protocol (exclusive of the Scope 2 Amendment)

Note 1 – Basis of Presentation:

The above amounts represent the Scope 1 and Scope 2 Location-Based Greenhouse Gas Emissions of HCA Healthcare, Inc. for the year ended December 31, 2021. These amounts have been prepared based on criteria referenced above and an operational control boundary, excluding HCA’s United Kingdom operations. Scope 1 emissions capture stationary combustion, mobile, and fugitive emissions (both refrigerants and anesthetics). Scope 2 emissions include purchased electricity consumption. Emissions are calculated based on actual utility and purchase data where available and extrapolated using spend and/or square footage data where actual data cannot be obtained. The following emission factor sources are referenced in the emission calculations:

Metric	Sources of Emissions Factors
Scope 1 Emissions	UK Department for Environment Food & Rural Affairs IPCC AR 5 Australian DAWE American Chemical Society Washington State Legislature Jubilee Medical Centre EPA
Scope 2 Location- Based Emissions	EPA eGRID Emission Factors 2020

Note 2 – Measurement Uncertainties:

Non-financial information is subject to measurement uncertainties resulting from limitations inherent in the nature of and the methods used for determining such data. The selection of different but acceptable measurement techniques can result in materially different measurements. The precision of different measurement techniques may also vary.
